

Hospitality Technology Solutions

A WELCOME EXPERIENCE FOR GUESTS.
SEAMLESS PROPERTY MANAGEMENT FOR YOU.

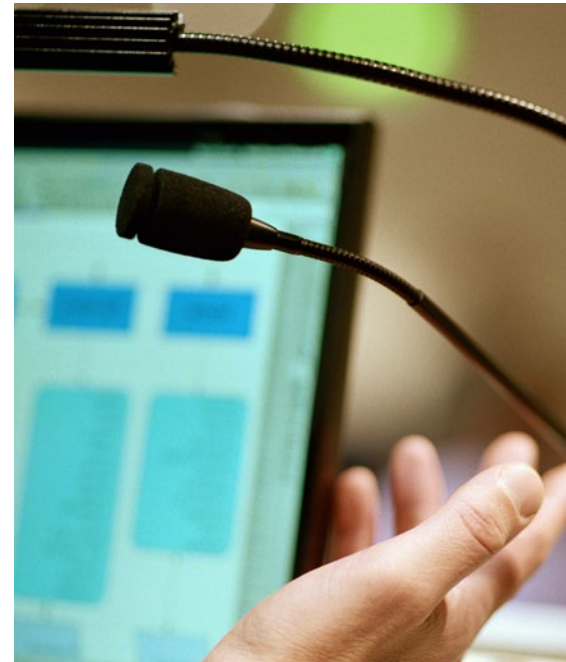

**Guest rooms, meeting rooms, and public spaces.
Retail and event spaces. Spas and restaurants.
Crestron enables you to create an unparalleled
experience in all of them that will keep guests
coming back.**

Only Crestron enables you to provide the ultimate in personalized guest service combined with robust, scalable, cost-effective property-wide monitoring and management. All on a single platform. Centrally and individually control lights, shades, climate, audio, video, room access, and room scheduling from keypads, remotes, and touch screens. Or use your own smart device for contactless control. Have them work in concert with just a tap. Activate personalized in-room welcome settings during check-in and allow guests to experience the simplicity and luxury of automated advanced room control.

Add in the heightened property appeal to meeting planners and tradeshow managers – which fuels your convention business growth – and it's clear why Crestron is the control and automation choice of some of the most prestigious hotels worldwide since 1992.

Deliver an experience to remember in every space

Smart guest rooms that feel like home. A stylish in-room touch screen that lets them activate favorite room scenes and access guest services with one-touch ease. Conference rooms that help guests get down to business. Ballrooms that help them have a ball. Put Crestron automation technology at the heart of every space – and your success.

SEAMLESS INTEGRATION, MATCHLESS CONTROL

SHADES AND DRAPES

Adjust shades and drapes at the touch of a button. Presets can ensure the perfect amount of light is allowed in throughout the day, so every space is always comfortable, while highly energy efficient.

LIGHTING

Control and automate every aspect of lighting. Occupancy sensors reduce energy wastage and utility consumption to help make your property more sustainable and profitable.

AUDIO

Deliver no-compromise audio everywhere. Whatever music guests want to hear in their room. Relaxing background music throughout public spaces. Crystal-clear speech in conference spaces. Concert-quality sound to pump-up the crowd in bars and event spaces.

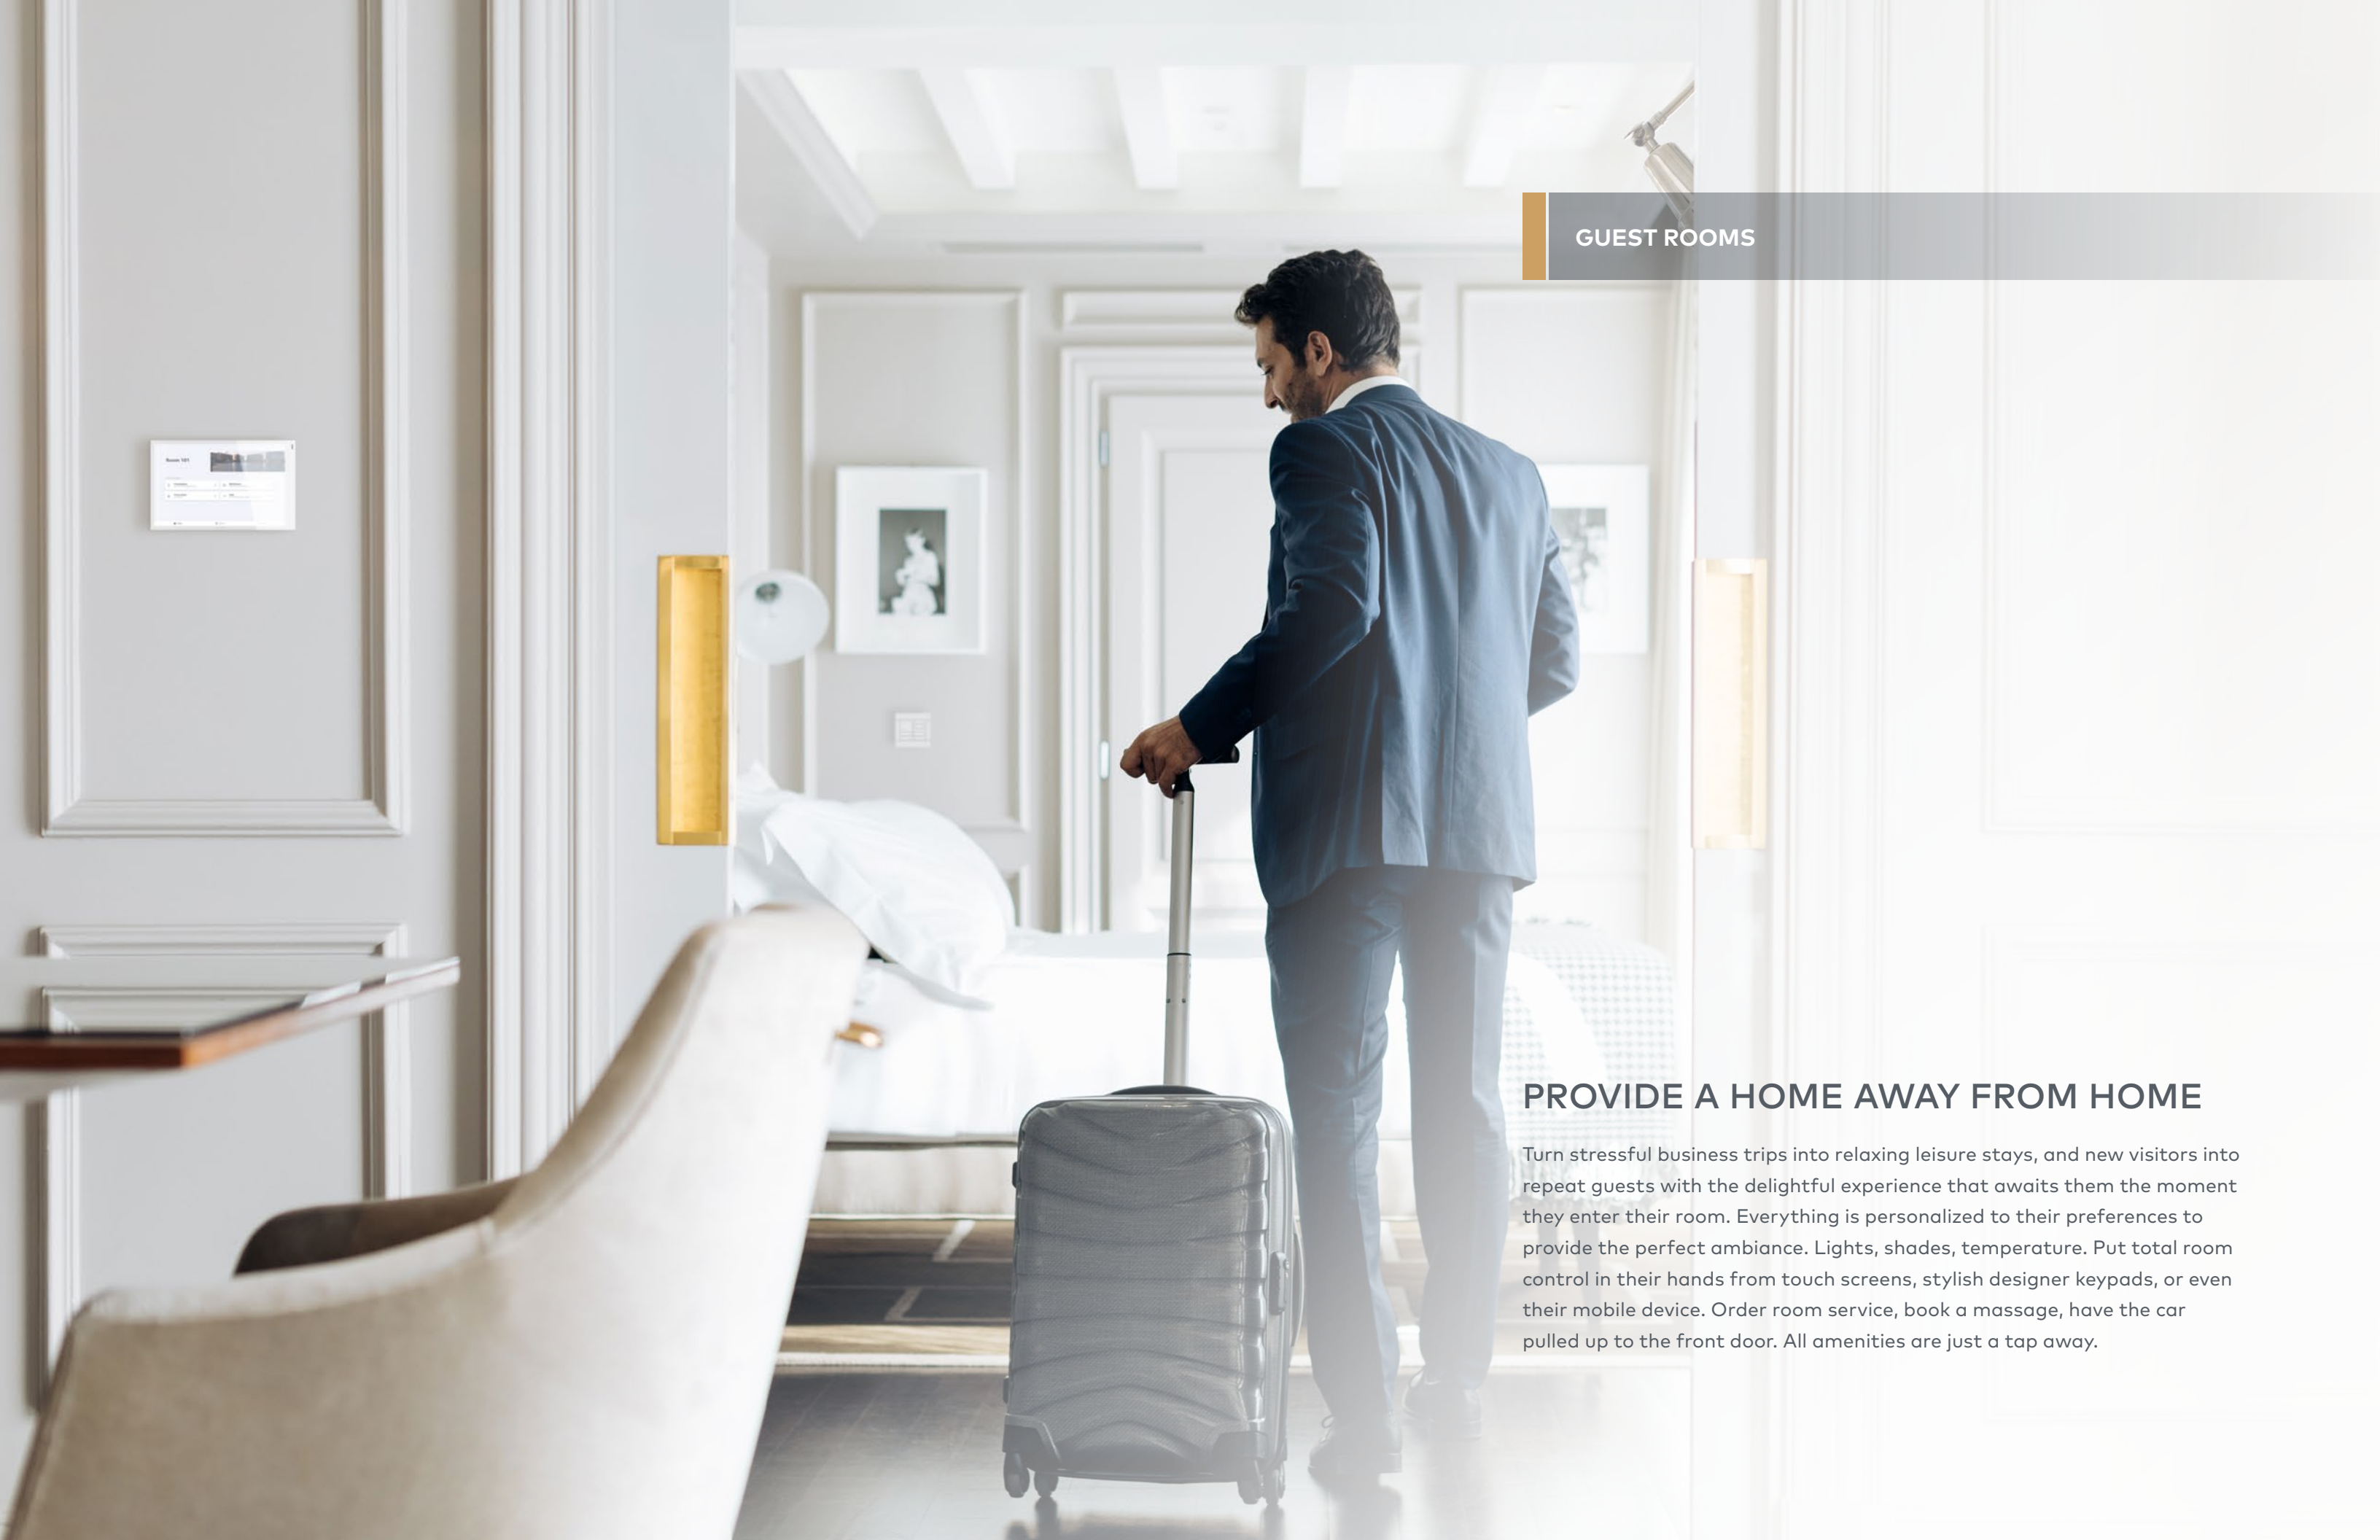

VIDEO

Stream different sources throughout common areas, show every game in the bar, or provide the ultimate video experience in-room.

CLIMATE

Always maintain the ideal temperature. Cold outside? Smart thermostats adjust automatically to keep guests warm; or if it's too hot, set the climate to cool. And with intelligent guest room control, you can always preset their preferred temperature, every stay.

A man in a blue suit is walking away from the camera down a bright, modern hotel hallway. He is pulling a grey rolling suitcase. The hallway has white walls, a coffered ceiling, and several doors. To the left, there is a desk with a tablet displaying a hotel interface. To the right, there are beds with white linens. The lighting is warm and ambient.

GUEST ROOMS

PROVIDE A HOME AWAY FROM HOME

Turn stressful business trips into relaxing leisure stays, and new visitors into repeat guests with the delightful experience that awaits them the moment they enter their room. Everything is personalized to their preferences to provide the perfect ambiance. Lights, shades, temperature. Put total room control in their hands from touch screens, stylish designer keypads, or even their mobile device. Order room service, book a massage, have the car pulled up to the front door. All amenities are just a tap away.

GLOBAL INNOVATORS CONFERENCE

THE 10TH ANNUAL EDITION
By Creators for Creators

CONFERENCE ROOMS AND EVENT SPACES

TECHNOLOGY THAT SMOOTHS THE WAY, AT WORK OR PLAY

Conferences that command attention. Business meetings that produce results. Weddings that deliver the dream.

With your BMS systems integrated with our renowned lighting control, advanced multimedia presentation systems, professional-quality video conferencing, and distributed AV solutions it's easy to make any seminar, meeting, or conference the best it can be and any wedding or party one to remember. All while reducing your energy costs and increasing the efficiency of your lighting and environmental systems.

Manage more with less resources

Using any web-enabled device you can easily:

- Monitor and manage room configurations and resources
- Recall preset lighting scenes or create new ones to provide the ideal ambiance
- View conference room availability
- Schedule meetings and events
- And more

AMENITIES AND PUBLIC SPACES

KEEP GUESTS ENTERTAINED AND INFORMED

Hotel amenities and public spaces should offer the same superior experience as guest rooms. The perfect lighting and temperature for optimal comfort. Digital signage to clearly direct guests, keep them informed, and promote events, restaurants, gift shops, and more. Flawless 4K content distributed to displays throughout the hotel. Audiophile-quality sound distributed everywhere. Whatever your needs, Crestron has a simple solution.

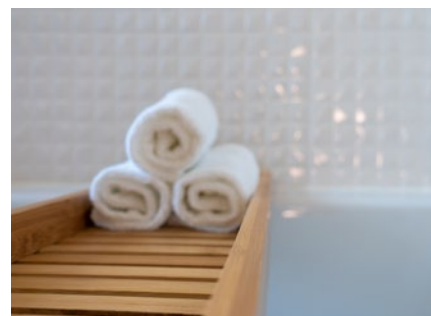

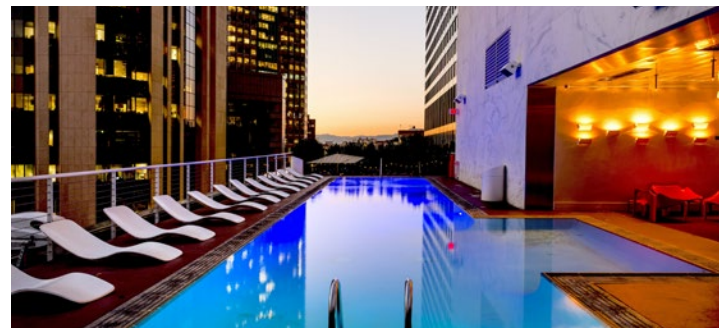

USER INTERFACES

CONVENIENT CONTROL

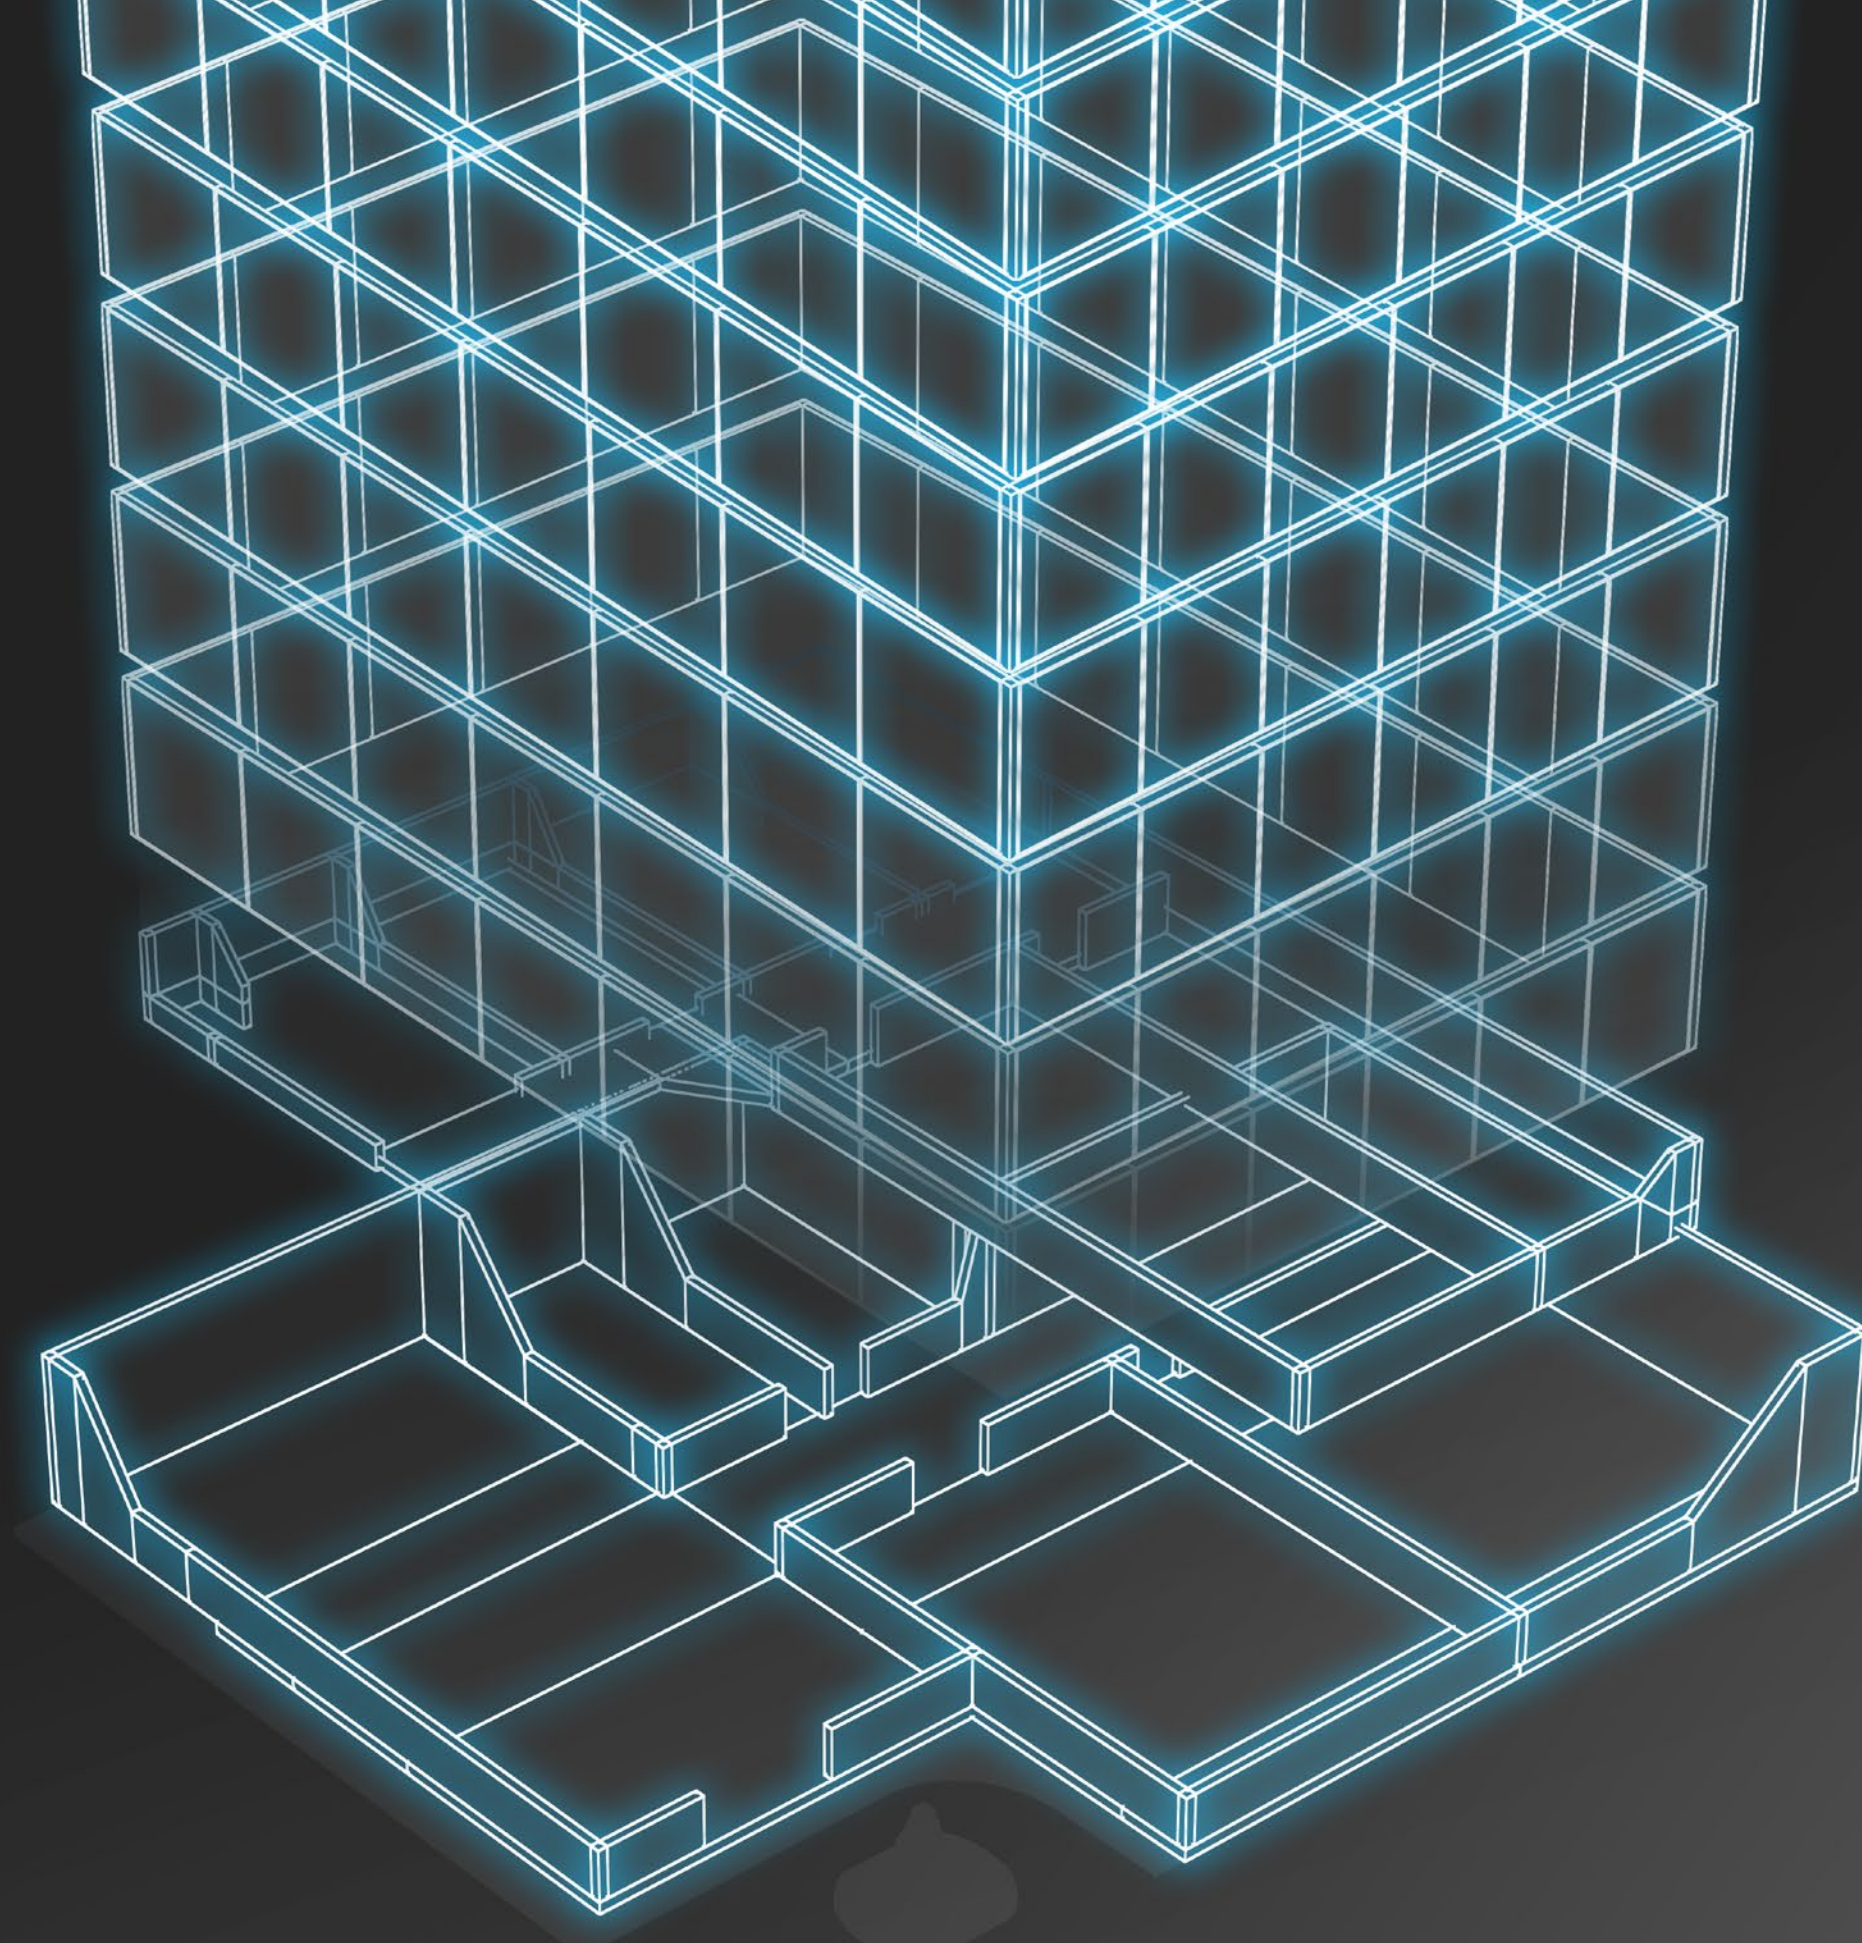

With Crestron, intuitive on-the-spot command of everything – audio, video, lighting, shades, temperature, security, and more – is always close at hand. Sophisticated, customizable keypads and handheld remotes. Brilliant, best-in-class wall mount or tabletop touch screens. Control via smart phone, for guests that prefer a contactless experience. And with the ability to easily customize the control app, you can deliver a consistent hotel-branded user experience across every device.

- Keypads
- Personal mobile devices
- Touch screens
- Tabletop conferencing
- Scheduling and wayfinding
- Smart thermostats
- Remotes

Everything works better when designed to work together

We understand the complexity and challenges of managing the world's premier hotels. Our solutions seamlessly integrate with your guest room and building management systems to make it simple and efficient. Centrally monitor and control all the technology and environmental systems in every room across the property, while empowering staff to provide personalized guest services that make customers into loyal customers.

TECHNOLOGY AND INFRASTRUCTURE MANAGEMENT

GRMS AND BMS

Monitor room configurations, select preset scenes, or create custom configurations directly from the management office. View conference room availability, schedule meetings and events, manage all room resources, and more. All remotely from any Internet connected computer.

ACCESS & SECURITY

From room access to control of your security solutions, Crestron delivers peace of mind for you and your guests. Monitor all devices and deliver immediate responses.

AUDIO AND VIDEO DISTRIBUTION

Distribute the highest resolution video and audiophile quality sound over your existing IT network, wherever you need it, from public spaces to luxury guest rooms. Simple. Efficient.

VIDEO CONFERENCING

Crestron video conferencing solutions enable guests to easily join meetings, collaborate, and work as if they were in the office, using their conferencing software of choice.

WIRELESS CONFERENCING AND PRESENTATION

Transform any meeting space into a high-quality conferencing space. Crestron makes it easy to present, share, and host a meeting from any personal device.

VIRTUAL TECHNOLOGY DEPLOYMENT / CONTROL

Deploy, unify, and control the growing number of devices in your meeting rooms, intelligently and efficiently – up to 500 rooms on a single server.

An aerial, top-down view of a modern building's central courtyard at night. The courtyard is a large, circular paved area with several small, circular landscaped islands containing trees and shrubs. A large, curved, light-colored structure, possibly a fountain or a large planter, is in the center. The surrounding building has a glass facade with many lit windows, and a street with cars is visible at the top. A semi-transparent blue box with the text 'ENERGY EFFICIENCY' is in the upper right corner.

ENERGY EFFICIENCY

GO GREEN, CONSUME LESS

Utility bills are a huge expense for every property, but they can be reduced in a big way without compromising on comfort. Crestron vacancy sensors, smart thermostats, lighting and shading control, plus BMS software integration, combine to deliver a powerful solution for reducing energy costs and increasing efficiency property-wide, while meeting your local green building standards.

TECHNOLOGY PARTNERS

PARTNERSHIPS THAT RAISE STANDARDS

Crestron works natively with products from leading manufacturers across multiple industries to deliver best-in-class experiences. From HVAC systems, big screen TVs, and conferencing software to designer keypads and video door stations, each partnership creates solutions that enhance the guest experience and streamline your operations.
